

Statement : To design, ideate and build efficient, beautiful, sustainable interiors and architecture.

Nationality : Indian

Date-of-Birth : 5th April 1987

Work Experience : Architect

Venkataramanan Associates (2016-2017)
Executive Architect
Form and Space Design Consultants (2014-2016)
Executive Architectural Designer
RSP Architects, Planners and Engineers (2010-2014)
Architect
Samar Ramachandra Associates (2009-2010)

Other Experience: Contributing Writer

Singapore Architect (2011-2015)
Contributing Writer
Futurarc Magazine, Asia (2011-2015)
Contributing Writer
The Times of India National Newspaper (2011-2012)
Architectural Journalist
Deccan Chronicle National Newspaper (2008-2010)

Education :

Masters of Science in Integrated Sustainable Design
School of Design and Environment, National University of Singapore (2011-2012)
Bachelor of Architecture
School of Planning and Architecture, New Delhi (2004-2009)

Projects :

The Valley School, Bangalore
Venkataramanan Associates (2016-2017)
Worked on the concept design scheme, design development and working drawings for the hostel block at the Valley School in Bangalore. The design idea was drawn up in tune with the principles of the school, including a zest for natural and sustainable living.

Wipro, Kodathi
Venkataramanan Associates (2016-2017)
Worked on the concept design scheme for the 4.2 million sft of the new Wipro office in Kodathi. The inclusive design scheme that celebrates the company's ideals and provides a cheery and bright office space for the 25,000 employees was widely appreciated.

LV Prasad Opticals, Hyderabad
Form and Space Architects (2015-2016)
Designed the interiors for optical stores over the 4 floors of the LV Prasad Eye Institute in Hyderabad. The interiors including furniture were planned to house the various divisions of the eye hospital. A floor dedicated to children's eye care was also planned with brighter colors trendy graphics.

Featherlite Retail Store, Hyderabad
Form and Space Architects (2014-2014)
Designed the interiors for a 1300 sft retail store in the upmarket district of Gachibowli in Hyderabad. Envisioned in white the store angles to display the fine office furniture to its very best. The store design garnered rave-reviews for its space planning and concept.

(contd)

Gemni Industries, Greater Hyderabad
Form and Space Architects (2013-2014)

Currently working on site-planning, design and building of a 50000 sft Industrial estate and factory building of Gemni Industries 30 km from the city of Hyderabad. The design process incorporates sustainable strategies and detailed planning for an efficient factory work-flow.

ISKANDAR HOUSING, Malaysia
RSP Architects, Planners and Engineers (2013-2013)

Worked on the urban planning and initial design concepts for 1500 -Unit housing project in the ISKANDAR region of Malaysia. The project Incorporated a township of commercial, retail and recreational Spaces in addition to the condominium units.

Bishan Nursing Home, Singapore
RSP Architects, Planners and Engineers (2012-2013)

Worked on the design of a 230-bed Nursing Home for the elderly commissioned by the Ministry of Health for Lions. The design concept imbibes the qualities of green design, sustainable parameters and seeks to serve as a model for new Nursing Homes.

Housing Project in Kolkata
RSP Architects, Planners and Engineers (2012-2013)

Worked on the conceptual design of a 30-storeyed housing development in the city of Kolkata with the intent of green principles applied, following the principle of Vaastu and set on the banks of a water-body. The incorporation of the water body as means of active cooling is explored. Reduction in the overall energy consumption is targeted.

Landed House
RSP Architects, Planners and Engineers (2012-2012)

Beginning from conception and working to-completion of a semi-detached house in the area of Upper Thomson collaborating closely with the client. The house uses intensely applied passive techniques that are sustainable in function.

Housing and Development Board, Elderly Studio-Housing
RSP Architects, Planners and Engineers (2011-2012)

Worked on the Design Development and Design supervision of the 3 Studio apartment projects designed for the elderly in 3 different locations, across Singapore. The apartments are located in Bukit Batok, Pasir Ris and Jurong West. My work scope included coordinating the authority application, weekly site-visits, client interaction and coordination between all the other consultants including structural, landscape and the main contractor.

Kallang Sustainable Urban Design <small>(Research)</small> National University of Singapore The studio project looks into rejuvenating the Kallang District in Singapore with a manifesto benchmarked at the years of 2030 and 2050. The Sustainable manifesto primarily aimed at turning the area into a zero-carbon zone, one with unparalleled green-design principle application. The research was supplemented by on-site case-studies before proposing a sustainable solution.	(2011-2012)
United Nations Environment Program Headquarters <small>(research)</small> National University of Singapore The research-based design project primarily served to work on pushing the limits of sustainability in an office building. The project explored and seek to fully utilize wind energy in the context of the Indian capital of New Delhi. A drastic reduction by about 80% was achieved in the energy consumption of the building. In addition to wind turbines, geothermal cooling/heating, photo-voltaics are proposed at a cap of 10%, in order to make the project more realistic.	(2011-2012)
